1 Rationale and Research Questions

Research question: How does air quality in various Ukrainian cities differ before and after the Ukraine-Russia dispute?
******* Rationale: On February 24, 2022, Russia attacked Ukraine. The first city attacked was Lviv and Dnipro. Kyiv was hit February 24th.

3 Exploratory Analysis

#I'm confused if we need to upload a shapefile of ukraine so that we can make a map bu

#we can download a csv of all the cities with lat and long from this link and we could
